

Mohammad Nur Uj Jaman Khan

Mail : tutorials.jaman@gmail.com

Mobile: +8801686773180

Phone: +8802224426095

Experience & Qualifications

- ✓ 5+ Years experience as a Full Stack Developer
- ✓ 3+ Years experience as a Data Scientist and AI Developer
- ✓ Strong hands-on experience and knowledge in Computer Vision and Natural Language Processing
- ✓ Good understanding of core programming, embedded computing, and digital systems
- ✓ Excellent team-player and displaying strong sense of initiative on tasks
- ✓ Very fast learner and ability to handle multi-tasking

Hard Skills

-  **Programming:** C, C++, Python 3, JavaScript, PHP, MySQL
-  **Data Science Tools:** TensorFlow, PyTorch, Scikit-Learn, Transformers, keras, NumPy, Pandas, Matplotlib, Plotly, Seaborn
-  **Machine Learning Techniques:** Machine Learning, Deep Learning, Reinforcement Learning, Active Learning
-  **Computer Vision:** Advanced image restoration, camouflage object detection, stable diffusion, YOLO8, StyleGAN3, DALL-E3
-  **NLP & LLM:** Natural Language Processing, Text to Speech/Speech to Text, Voice Clone, Text to Image/Video, Domain Specific and Cross Domain Chatbot
-  **Desktop & Web Development:** QtCore, Tkinter, Flask, Django, Laravel
-  **Development Environments:** Visual Studio Code, Anaconda Environment and Jupyter Notebook

Education

Bachelor of Science in Engineering in Computer Science and Engineering

Institution: Jashore University of Science and Technology

Year: 2020

Graduation in Engineering in Mechanical Engineering

Institution: Institute of Engineers Bangladesh

Enrolled: 2023

Expected Completion: 2027

Work History

Data Science and AI Engineering | Freelancer.com

17 Aug 2023 - Continuing

- ▶ Highly accomplished Data Science and AI Engineering freelancer with 0.9 years of experience, boasting a remarkable 100% Success Rate, 6 diverse projects, and 108 hours of dedicated work. Consistently delivered exceptional results, earning a consistent 5-star rating.
- ▶ Expertise in X-ray image analysis for disease detection, leveraging AI-based segmentation techniques.
- ▶ Proficient in applying data science concepts to drive precision in various domains, such as communication technology and autonomous vehicles.
- ▶ Developed innovative NLP-powered solutions, like Document Copilot, for efficient document handling and content generation.
- ▶ Successfully implemented Federated Learning for precise wave beam detection in vehicle-to-infrastructure networks, enhancing communication systems.
- ▶ Developed AI-powered autonomous vehicle systems, enabling safe and efficient operations through machine learning algorithms.
- ▶ Created a revolutionary Document Copilot/Bot, utilizing NLP to generate high-quality content quickly and overcome writer's block.
- ▶ Collaborated with Langchain and Hugging Face to integrate large language models (LLMs) for tailored applications, enhancing flexibility and power.
- ▶ Contributed to the development of X-ray image analysis for disease detection, leveraging AI-based segmentation methods for accurate diagnosis and planning.

Senior AI Researcher and Full Stack Developer

18 Mar 2022 - Continuing

- ▶ Highly skilled AI/ML engineer and developer with 2.2 years of experience in C++, Python, and Machine Learning Algorithms. Proven track record of delivering high-quality results with a 100% Job Success Rate, Top Rated, completing 40+ projects, and accumulating 427 hours of work. Maintained a stellar 4.8-star overall rating.
- ▶ Developed various AI/ML projects, including chatbots, language models, recommender systems, and computer vision applications. Proficient in frameworks like TensorFlow, LangChain, and ChatGPT.
- ▶ Utilized Python for a range of projects, from AI/ML development to web application development and algorithmic trading.
- ▶ Applied C++ expertise in projects related to fluid dynamics simulation and stochastic control.
- ▶ Developed a full-fledged computer vision Exercise & physio therapy tracker application for complex therapy movement with several detection methods like YOLO8 and mediapipe with speech-activated health monitoring system.
- ▶ Developed multiple chatbots, including one using ChatGPT, LangChain, Whisper, and Wolfram Alpha.
- ▶ Successfully implemented Advanced Deep Learning models (BERT, ROBERTa, GPT2, T5) for NLP tasks.
- ▶ Demonstrated expertise in Computer Vision by extracting planar roof structures from aerial images and creating an AI that understands screenshots.
- ▶ Built a recommender system using Python and developed various web applications, including a personal trainer and symptom checker.
- ▶ Conducted algorithmic trading using ML and Jupyter Notebooks.
- ▶ Created voice clones and TTS solutions, including a virtual microphone for real-time speech-to-speech conversion.
- ▶ Contributed to diverse projects, such as stochastic control and forecasting using Kalman filters, and recompiling C++ code for fluid dynamics simulation.

Computer Programmer | Fiverr

22 August 2020 - Continuing

- ▶ Established and highly skilled Level 2 Seller on Fiverr, boasting a remarkable 5-star rating and a 10 out of 10 Success Rate. With 5.3 years of expertise in Data Analysis, Programming, and Web Development, I have delivered exceptional results across various domains.
- ▶ Developed versatile bots, next-generation AI image generation, and engaging chatbots that interact with users and automate tasks.

- ▶ Expertise in advanced image restoration, innovative camouflage detection, stable diffusion, and StyleGAN3 image generation, showcasing ability to create realistic images and analyze visual data.
- ▶ Created Phi and Mistral-based advance Copilots, demonstrating exceptional language understanding and reasoning capabilities.
- ▶ Conducted dynamic sports analytics, incorporating data to analyze and improve athletic performance.
- ▶ Successfully applied programming skills to develop web applications, demonstrating proficiency in various programming languages.
- ▶ Developed innovative and versatile AI-powered solutions, including bots, image generation, and restoration technologies.
- ▶ Demonstrated expertise in computer vision, natural language processing, and data analysis, solving complex problems in entertainment, engineering, scientific research, and sports analytics.
- ▶ Created engaging chatbots, dynamic sports analytics, and realistic fluid simulations, showcasing the ability to adapt to diverse project requirements.
- ▶ Utilized cutting-edge models like Phi-2 and Mistral to create advanced Copilots, highlighting expertise in NLP and AI.

Full Stack Developer | Singularity Limited

1 Dec 2020 - 1 Mar 2023

- ▶ Result-driven professional with 2.2 years of experience in Business Analysis, Database Application, and Recommendation Engine development. Proven track record of delivering impactful solutions that drive business growth, improve customer experiences, and enhance operational efficiency.
- ▶ Skilled in CDR analysis, e-commerce optimization, inventory control, and CRM strategy, with a focus on driving business growth and improving customer experiences.
- ▶ Proficient in developing and integrating database applications to streamline business operations and improve data management.
- ▶ Expertise in building app-based recommender systems using machine learning to provide personalized experiences for users.
- ▶ Conducted CDR analysis to provide valuable insights into call patterns, network usage, and customer behavior, resulting in improved productivity and enhanced customer service for telecommunications companies.
- ▶ Developed e-commerce optimization strategies to improve website design, product description, search engine ranking, and shopper experience, leading to increased traffic and conversions.

- ▶ Implemented inventory control systems to manage stock levels, monitor customer demand, and ensure timely delivery of products, resulting in reduced inventory costs and improved supply chain management.
- ▶ Designed and developed Facebook marketing automation strategies to streamline marketing tasks, target audience segments, and analyze performance metrics, resulting in improved engagement and conversion rates.
- ▶ Integrated ERP systems with other software applications and databases to facilitate data exchange and ensure synchronization across various business functions, resulting in improved operational efficiency and reduced costs.
- ▶ Created business web designs that effectively represented businesses online, incorporating user-friendly navigation, high-quality images, clear call-to-action buttons, and visually appealing layouts, resulting in improved online presence and customer engagement.
- ▶ Developed CRM strategies to manage and nurture customer relationships, provide personalized experiences, and build stronger relationships, resulting in improved customer satisfaction and loyalty.

Research Assistant | Bangladesh Agriculture University

Aug 2020 - Jul 2023

- ▶ Designed and developed an IoT system for monitoring plant health and environmental conditions, predicting optimal harvesting times for maximum production.
- ▶ Built a deep learning-based plant disease detection system for prompt identification and treatment.
- ▶ Successfully deployed YOLO8 custom training for rice grain classification and counting, revolutionizing intelligent rice mills.
- ▶ Classified pumpkin flowers for male/female sorting, resulting in increased yields and sizes.
- ▶ Created a chatbot, "Farmers Mate", using Large Language Models (LLMs) to provide personalized assistance to farmers.

Certifications

IBM AI Engineering Professional Certificate

Issuer: IBM

Location: Remote

Start Date: June 4, 2023

End Date: June 8, 2024

Google IT Support Professional Certificate

Issuer: Google

Location: Remote

Start Date: July 18, 2023

End Date: June 8, 2024

DeepLearning.AI TensorFlow Developer Professional Certificate

Issuer: Deeplearning.AI

Location: Remote

Start Date: March 12, 2020

End Date: July 27, 2021

Google IT Automation with Python Professional Certificate

Issuer: Google

Location: Remote

Start Date: February 10, 2020

End Date: September 25, 2020

IBM Applied DevOps Engineering Professional Certificate

Issuer: IBM

Location: Remote

Start Date: October 2, 2023

End Date: Ongoing

IBM Backend Javascript Developer Professional Certificate

Issuer: IBM

Location: Remote

Start Date: January 2, 2024

End Date: Ongoing

Meta Front End Developer Professional Certificate

Issuer: Meta

Location: Remote

Start Date: March, 2024

End Date: Ongoing

Google Cyber Security Professional Certificate

Issuer: IBM

Location: Remote

Start Date: October 2, 2023

End Date: May 8, 2024

Projects & Accomplishments

Camouflaged Object Detection, Identification and Tracking

Autonomous Multipurpose Weapon System: A Computational Military Approach (Advance Computer Vision, Decision Model and Robotics)

A Systematic Study and Analysis of Bengali Folklore with Natural Language Processing Systems (Publication on pre print)

Audio processing with AI, Cloning Voice, Style Transfer, Music Generation

Re-enhanced and fully restore the image with AI

Near Human Like Chatbot by LLaMA 3 and RAG

Chat with PDF and Docs powered by GPT 4

Fitness Coach AI for Therapy/Exercise on Parralysis Patient

Symptoms Checker Webapp with Full ability to prescribe and ask for test

And Many more

Personal Details

Father's Name : Md Ismail Hossain Khan

Mother's Name : Nurjahan Khan

Date of Birth : 13 Oct 1994

Gender : Male Height (Meter) : 1.69 Weight (Kg) : 82

Marital Status : Married Nationality : Bangladeshi Religion : Islam

Permanent Address : Beer Nibas, Plot - 258, Road - 3, Rupayon Abashon 1, East Jamgora, EPZ-1349, Savar, Dhaka 1349

Current Location : Dhaka

Blood Group : O+

Reference 1

Name : Dr Sayed MD Galib

Organization : Jashore University of Science and Technology

Designation : Professor, Chairman of CSE department and Dean of Faculty of Engineering and Technology

Address : Faculty of Engineering and Technology (1st Floor), Bangabandhu Sheikh Mujib Academic Building, JUST, Jashore – 7408

Relation : Academic teacher

Primary Mobile No : 01781408274

Email: galib.cse@just.edu.bd

Reference 2

Name : Arch. MD Nurul Alam Khan

Organization : Mondol Group

Designation : AGM (Architecture)

Address : Nikkon Housing, Kuturia, Ashulia, Dhaka 1344

Primary Mobile No : 01712054549

Email : nirjhararch@gmail.com Brothe
